

CALLING ALL WOMEN IN SCIENCE

**You are invited to the
organizational meeting of the
new Northwest Ohio Chapter of
the
Association for Women in Science
(NWO-AWIS)**

**Monday, November 21, 2005
4-5 pm**

**Bowman-Oddy Labs 1031
The University of Toledo**

The NWO-AWIS recently had its constitution and bylaws approved by national AWIS headquarters. We are eager to foster networking and communication among women science, mathematics, and technology faculty, staff, and students at UT, MUO, BGSU, and other regional institutions. We are particularly interested in establishing good mentoring of our women students, postdocs, and non-tenured faculty and planning outreach activities. At our first meeting we will plan our upcoming chapter activities (COSI event, brown bag lunches, speaker program, grant submissions and more).

We hope to see you in 2 weeks! If you are interested in joining NWO-AWIS, but cannot attend the 1st meeting, please send your contact information as noted below.

For more information contact Dr. Patricia Komuniecki at pkomuni@utnet.utoledo.edu or visit our website at: <http://astro1.panet.utoledo.edu/~ndm/AWIS/>
