

The University of Toledo
Department of Biological Sciences presents

The 2nd Annual Distinguished Alumna Lecture

***“Stem Cell Research:
Facts, Myths and Future Directions”***

by

Nancy Collins, Ph.D.

Director, Cytotherapy Laboratory
Memorial Sloan-Kettering Cancer Center

Dr. Nancy Heffner Collins earned B.S. and M.S. degrees in Biology from UT and her Ph.D. (immunology) from The University of Rochester. She served as the Director of the Allogenic Stem Cell Facility at Sloan-Kettering for 18 years and currently is the Director of the Cytotherapy Laboratory at Memorial Hospital for Cancer and Allied Diseases and an Associate Lab Member at the Sloan-Kettering Cancer Center. She is the co-founder of the International Society of Cellular Therapy (ISCT) and is active on many editorial/oversight boards on stem cell research and transplantation issues including the National Marrow Donor Program and the Editorial Board of *Cytotherapy*. She is on an external NIH review board to examine how to facilitate the transition of cellular therapies from the research bench to the patient bedside. She will be honored by the College of Arts and Sciences as the Outstanding Alumna in the Sciences at Homecoming 2005.

Wednesday, October 5, 2005

5:30 p.m.

Wolfe Hall Room 1201

Reception immediately following the seminar in the lobby

***Co-sponsored by the Northwest Ohio Chapter of the Association for Women in
Science, The College of Arts and Sciences, and the UT Alumni Association***
